

The White Winged Dove

This bird is 11 to 12 inches tall. It has a blue circle around its eye. It has a little bit of white on it . Its tail is a little bit long.

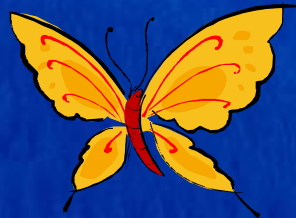

The white winged dove lives in saguaros, deserts, towns and dry woods. Its nest is a flimsy twig platform in a tree or thicket.

It eats seeds, grain, fruits and insects. It lays pale buff colored eggs.

It makes a harsh cooing that sounds like
“Who cooks for you?”
