

Janie B., First Grader (at last!)

This is a review of the book Junie B First Grader at Last. This is a book about a girl who is starting first grade. Junie B. and mom are my favorite characters. She had to do a lot of class work. She had a mean friend named May. I like Junie B because she funny and fun.

I can relate to Junie B. because when I get in trouble I have to go to time out. I went to first grade just like Junie b. and

I have a journal just like she does.

I like this book. I like when Jose told Junie b. that she was mean.

I would defenitely recommend this book to Reana and Dania because they love Junie B.
